Company Profile

Pesticides & Dyes
MACHINERY MANUFACTURERS

Booth Mixture Machine

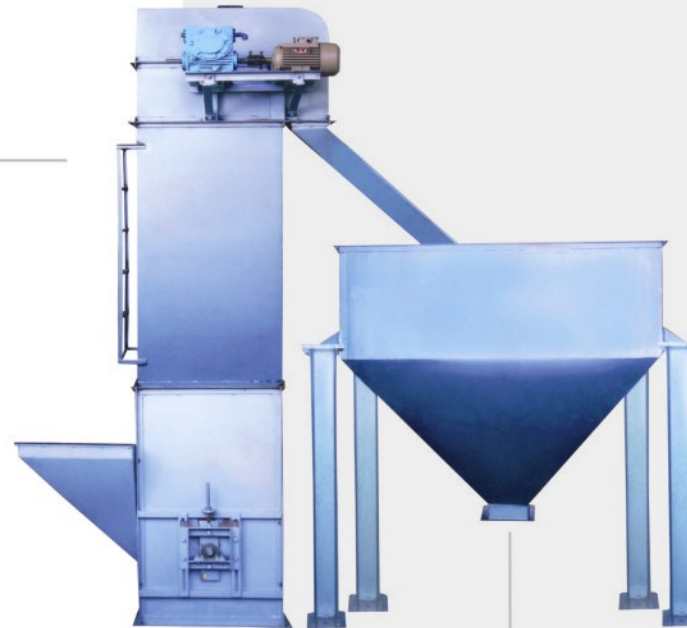

- A unique machine, in which you can formulate homogeneous Quality Pesticides / insecticides Granules viz; Phorate, Cartap, Butachlor, Chlorpyrifos, Carbofuran, Bio Granules, PGR etc.
- Unique for quality Granule formulation.
- Capacity 0.5 to 2.5 ton
- Easy to operate & maintain
- Easy to modify.

Bucket Elevator

- Required very small ground area.
- Economical & speedy
- Easy to transfer / charge the material in to machine or storage silo.

Storage Hopper

- Sturdy, balance body, can take enough load.
- Flexibility for capacity
- Twin storage facility in one silo Weighing system

Spraying System

- System consist of Aspee spray pump, SS solution stirring tank with heating facility provision, SS spray pipeline with nozzles.
- Technical Holding tank to hold the required qty. for spray.
- Giving good accurate spray which is the basic need for quality product.

Liquid Stirring Vassel

- Turbine / anchor type stirrer can give you homogeneous well mixed quality product.
- Can be used to mix / formulate different pesticides / insecticides viz; Dimethoate , Monocrotophos, Chlorpyrifos, Cypermethrin etc.

Ribbon Blender

- Correct machine for quality homogeneous mixing different pesticides/ insecticides viz; Fenvalrate dust, Methyl parathion dust, Quinalphos dust & WP/WDP Product etc.
- Good accuracy & precise Quality.
